

# IAF Endorsed™ Comprehensive Programme on Group Facilitation Skills

## 'Facilitation: Making Group Wisdom Work'

January 2023

### Guide on the side, not a sage on the stage

Leadership has constantly evolved – from being Power based to Influence based to Transformation based. Now, more than ever, the world has a lot more Volatility, Uncertainty, Complexity, Ambiguity (VUCA), compelling leaders to re-look at their leadership styles once again.

Teams today are rarely homogenous, remote ones even less so. The need to bring diverse individuals/groups to think, collaborate and work together has never been greater. It's time for Facilitative Leadership.

Group facilitation is a skill that uses processes and tools to enable the coming together of different views and thoughts of a group to achieve a collective objective. It is a critical skill today, for coordinating the ideas and contributions of diverse sets of people within organizations, during meetings on strategy making, problem solving, and change management, and for overall organizational effectiveness.

The **International Association of Facilitators (IAF) Endorsed™ Comprehensive Programme on Group Facilitation Skills, 'Facilitation: Making Group Wisdom Work'** is a highly interactive, learner-centric program designed to help you explore the power of facilitation to leverage collective knowledge and experience of a group and achieve effective outcomes.

### What participants will learn

- Understand why and when to use facilitation
- Understand and implement the design process for facilitation
- Enable and facilitate groups to achieve the desired outcomes
- Build engagement during interactions
- Apply the IAF competencies and code of ethics
- Understand and be able to leverage the different facilitation methods and tools

### The Endorsement

This program has been reviewed and is endorsed by the **INTERNATIONAL ASSOCIATION OF FACILITATORS (IAF)**

For more information please visit <https://www.iaf-world.org/site/professional/endorsement>

### Who should attend

Business leaders, managers, HR and L&D professionals, facilitators, consultants and trainers
